

REMOVABLE BOLLARD

90mm Diameter Surface Mount Bollard – Key Lock (Yellow)

Description:

The 90mm Diameter Surface Mount Bollard with a key lock mechanism is a highly durable, removable security bollard designed for vehicle access control, pedestrian safety, and asset protection. Featuring a bright yellow powder-coated finish for high visibility, this bollard is ideal for parking lots, driveways, loading docks, and restricted access areas. The key lock system allows for easy removal and reinstallation, providing flexibility for controlled access when needed.

Features:

- Strong Steel Construction: Built for durability and long-lasting performance.
- Key Lock Mechanism: Allows for secure locking and easy removal when necessary.
- Surface Mount Design: Quick and simple installation without the need for deep excavation.
- High Visibility Yellow Finish: Enhances safety and visibility in various environments.
- Tamper-Resistant Locking System: Prevents unauthorized removal.
- Weather & Corrosion Resistant: Powder-coated finish protects against rust and harsh conditions.
- Versatile Use: Suitable for commercial, industrial, and residential applications.

Uses:

- Traffic & Parking Management: Controls vehicle access in parking areas, driveways, and loading zones.
- Pedestrian Safety: Protects walkways, storefronts, and building entrances.
- Temporary Access Control: Easily removable when access is required for maintenance or deliveries.
- Asset Protection: Shields valuable infrastructure, gas meters, and electrical panels.
- Restricted Entry Points: Ideal for government, corporate, and private property security.
