

REMOVABLE BOLLARD

90mm Diameter Surface
Mount Bollard – Padlock (Yellow)

Description:

The 90mm Diameter Surface Mount Bollard with a padlock locking system is a sturdy, removable security solution designed for traffic control, asset protection, and restricted access management. This bollard features a bright yellow powder-coated finish for high visibility and durability. The padlock mechanism allows for easy removal and reinstallation, making it ideal for temporary or semi-permanent vehicle access control.

Features:

- Heavy-Duty Steel Construction: Ensures strength, durability, and long-lasting performance.
- Padlock Locking System: Provides secure access control with easy removal when needed.
- Surface Mount Installation: Quick and straightforward setup with no deep excavation required.
- High Visibility Yellow Finish: Enhances safety and visibility in all environments.
- Tamper-Resistant Design: Protects against unauthorized access and removal.
- Weather & Corrosion Resistant: Powder-coated finish for protection against rust and harsh conditions.
- Versatile Applications: Suitable for commercial, industrial, and residential use.

Uses:

- Traffic & Parking Management: Controls vehicle access in parking areas, driveways, and loading zones.
- Pedestrian Safety: Protects storefronts, side-walks, and building entrances.
- Temporary Access Control: Easily removable for maintenance, deliveries, or emergency access.
- Asset Protection: Shields infrastructure, gas meters, electrical panels, and storefronts.
- Restricted Entry Points: Ideal for government, corporate, and private properties.
