

BIKE POSTS

(2 Tier Black)

Description:

The 2 Tier Black Bike Post is a durable and stylish bike parking solution designed for efficient space utilization. With a robust black powder-coated finish, this post offers excellent resistance against weathering and corrosion. Its two-tier structure enhances bike storage capacity, making it an ideal choice for high-traffic areas. Lightweight yet strong, it ensures stability and security for parked bicycles.

Features:

- Durable black powder-coated finish for enhanced corrosion resistance
- Two-tier structure allows for increased bike storage capacity
- Compact yet sturdy, providing reliable support for parked bicycles
- Sleek and modern design suitable for urban and residential areas
- Easy to install and maintain

Uses:

- Ideal for public bike parking spaces
- Suitable for schools, offices, and residential buildings
- Great for cycle racks in commercial and retail spaces
- Provides organized and secure parking for multiple bicycles

Specifications:

Length	Height	Width	Weight	Finish	Tiers
20mm	216mm	20mm	11.35kg	Black-coated steel	Two-tier design

BIKE POSTS

(1 Tier Galvanised)

Description:

The 1 Tier Galvanised Bike Post is a strong and reliable bike parking post, built for long-term durability. Its hot-dip galvanised finish ensures superior protection against rust and corrosion, making it ideal for outdoor environments. The single-tier design offers a simple yet effective solution for bike storage, providing stability and ease of access in various locations.

Features:

- Hot-dip galvanised finish for superior rust and corrosion resistance
- Strong and durable single-tier structure
- Slightly heavier, providing additional stability
- Simple and functional design for easy use and installation
- Weather-resistant, making it ideal for outdoor spaces

Uses:

- Perfect for outdoor bike parking in public areas
- Suitable for parks, schools, and workplaces
- Great for individual bike stands in residential spaces
- Provides secure and stable support for parked bicycles

Specifications:

Length	Height	Width	Weight	Finish	Tiers
20mm	210mm	20mm	11.65kg	Galvanised steel	Single-tier design
