

SURFACE MOUNT BOLLARD

90mm Diameter Surface Mount Bollard – Yellow Powder-Coated

Description:

The 90mm Diameter Surface Mount Bollard is a high-strength, durable barrier designed for traffic control, asset protection, and pedestrian safety. Its bright yellow powder-coated finish ensures maximum visibility, making it ideal for parking lots, warehouses, commercial spaces, and industrial facilities. The surface mount design allows for easy installation without deep excavation.

Features:

- Heavy-Duty Steel Construction: Built for impact resistance and durability.
- Bright Yellow Powder-Coated Finish: Provides high visibility for enhanced safety.
- Surface Mount Installation: Easy to install with no deep digging required.
- Corrosion & Weather Resistant: Powder-coated finish protects against rust and wear.
- Tamper-Resistant Design: Secure and resistant to impact and unauthorized removal.
- Versatile Application: Suitable for commercial, industrial, and public spaces.

Uses:

- Traffic & Pedestrian Control: Helps regulate vehicle movement and pedestrian flow.
- Parking Protection: Protects buildings, storefronts, and walkways from vehicle damage.
- Industrial & Warehouse Safety: Defines restricted areas and protects equipment.
- Public & Commercial Spaces: Used in shopping centers, hospitals, offices, and schools.
- Security Barrier: Deters unauthorized access to restricted areas.

Specifications:

Material	Diameter	Height	Width	Weight	Finish	Installation
Heavy-duty steel	90mm	1000mm	90mm	8.52 Kilograms	Yellow powder-coated for durability and visibility	Surface mount with base plate for secure attachment to concrete or asphalt
