

SURFACE MOUNT BOLLARD

90mm Diameter Surface Mount Bollard – Disabled Access (Yellow Powder-Coated)

Description:

The 90mm Diameter Surface Mount Bollard is specifically designed for disabled access areas, providing clear and visible demarcation in parking lots, pathways, and restricted zones. Its bright yellow powder-coated finish ensures high visibility, while the surface mount design allows for easy and secure installation. This bollard is ideal for protecting pedestrian areas, guiding traffic, and ensuring compliance with accessibility regulations.

Features:

- Heavy-Duty Steel Construction: Ensures long-lasting strength and durability.
- High Visibility Yellow Powder-Coated Finish: Improves safety and visibility in all conditions.
- Surface Mount Installation: Quick and easy setup with no deep excavation required.
- Disability Zone Identification: Clearly marks accessible pathways and parking spots.
- Tamper-Resistant Design: Secure and sturdy, resistant to impact and unauthorized removal.
- Weather & Corrosion Resistant: Powder-coated finish protects against rust, wear, and harsh outdoor conditions.
- Versatile Applications: Suitable for commercial, industrial, and public spaces.

Uses:

- Disabled Parking & Access Control: Clearly identifies reserved disability parking spaces.
- Pedestrian Safety & Traffic Guidance: Helps manage vehicle and foot traffic efficiently.
- Commercial & Public Spaces: Used in shopping centers, hospitals, office buildings, and government properties.
- Infrastructure Protection: Shields ramps, sidewalks, and entryways from vehicle damage.
- Compliance with Accessibility Standards: Ensures adherence to local and national accessibility

Specifications:
