

SINGLE HOOP BIKE RACKS

Inground Mount Hoop – Stainless Steel

Description:

The Inground Mount Hoop – Stainless Steel is a durable and secure bike parking solution designed for permanent installation. Made from high-quality stainless steel, it offers excellent resistance to rust and corrosion, making it ideal for both indoor and outdoor use. This hoop-style bike rack is installed by embedding it into the ground, ensuring enhanced stability and security for bicycles.

Features:

- **Premium Stainless Steel Construction:** Rust-resistant and built for long-term durability.
- **Secure & Stable Design:** Inground installation provides maximum stability and theft prevention.
- **Space-Efficient & Versatile:** Allows efficient bike storage without taking up excessive space.
- **Sleek & Modern Finish:** Enhances the aesthetics of any environment.
- **Weather-Resistant:** Withstands harsh outdoor conditions with minimal maintenance.
- **Accommodates Multiple Locking Options:** Suitable for U-locks, chains, and cables.

Uses:

- **Public Parks & Recreational Areas:** Provides a safe and convenient bike parking solution.
- **Residential & Commercial Buildings:** Ideal for apartments, offices, and shopping centers.
- **Schools & Universities:** Offers students and staff secure bicycle parking.
- **Transport Hubs:** Perfect for train stations, bus stops, and transit areas.
- **Retail & Bike Shops:** Ensures organized and secure bike storage for customers.
